

KAMLESHWARI BANJARE

Laravel / PHP Developer

Raipur, Chhattisgarh | +91 8817359976 | kayrabanjare9466@gmail.com

LinkedIn | github.com/kayra2000 | kayra2000.github.io

PROFESSIONAL SUMMARY

Backend-focused Full Stack Developer with 4+ years of hands-on experience building scalable web applications using PHP 8, Laravel 10/11, and CodeIgniter 4. Proven track record delivering production-grade ERP, CRM, and API-driven systems across logistics, e-commerce, government, and FMCG domains. Adept at REST API design, RBAC-based authentication, MySQL query optimisation, and Agile delivery. Seeking senior/backend developer roles at product-driven organisations.

TECHNICAL SKILLS

Backend:	PHP 8.x, Laravel 10/11, CodeIgniter 4
Database:	MySQL Optimization, Database Normalization, Redis
Architecture & APIs:	REST API Design, RBAC & Auth (Sanctum/JWT), Service-Repository Pattern
Frontend:	JavaScript (ES6+), AJAX, Bootstrap 5, HTML5/CSS3
Infrastructure:	Git/GitHub, Postman, Linux CLI, Laravel Queues/Horizon, PHPUnit, Docker, AWS S3

PROFESSIONAL EXPERIENCE

Software Developer | IndiCorp IT Solutions Pvt. Ltd., Noida (UP) Jan 2025 – Present

- Architected and delivered ERP & CRM modules (PO, GRN, inventory, lead management), reducing manual procurement workflows by ~40%.
- Designed and implemented RESTful APIs with strict Role-Based Access Control (RBAC) via Laravel Sanctum/Passport, enabling secure multi-role access for 5+ user tiers.
- Optimised complex MySQL queries using indexing, query caching, and eager loading, improving critical page response times by ~60%.
- Collaborated in Agile sprints with UI/UX and QA teams; managed version control via Git and API documentation with Postman.

Software Developer | WES Consultancy Pvt. Ltd., Raipur (CG) Dec 2023 – Dec 2024

- Built scalable backend services using Laravel 10 and PHP 8, implementing service-repository patterns for a clean, maintainable architecture.
- Designed normalized relational database schemas in MySQL and applied migration-based version control for consistent multi-environment deployments.

Full Stack Developer | Tas Pro Company Pvt. Ltd., Raipur (CG) Jun 2023 – Nov 2023

- End-to-end development of a home-services E-commerce platform covering product catalogue, cart, booking, payments, and admin dashboard.
- Built reusable REST APIs consumed by both web and third-party clients; implemented AJAX for real-time order status and search features.

Jr. Software Developer | Chaaruvi Infotech Pvt. Ltd., Raipur (CG) May 2022 – May 2023

- Developed web applications across E-commerce, Image Marketplace, Real Estate, MLM, and Transportation domains using Laravel and modern frontend stack.
- Integrated third-party payment gateways, SMS/email notification APIs, and Google Maps API to enhance product functionality.

KEY PROJECTS

OneCorp ERP

Tech Stack: Laravel 11, Modular Architecture, MySQL, JWT Auth, Redis

- Architected a fully modular enterprise ERP covering lead procurement, PO/GRN processing, and inventory logistics.
- Implemented JWT-secured RESTful APIs with Role-Based Access Control (RBAC) handling 5+ distinct department tiers.
- Saved ~40% of manual operational time by automating dynamic inventory and delivery workflows.

PhotoCorp (AI-Powered Event Photography)

Tech Stack: Laravel API, Python Image Recognition, Redis, AWS S3

- Designed high-performance backend API endpoints capable of processing and storing thousands of event photographs with face-match accuracy.
- Integrated Python-based face-recognition logic for automated customer tagging, streamlining gallery delivery and booking management.

Nagina (Bulk Coupon Management System)

Tech Stack: Laravel, Redis, Queue Workers, WebSockets

- Built high-performance coupon generation using Redis and Laravel Queues, mass-producing 10,000+ QR-code coupons on demand.
- Packaged individual PDFs into ZIP archives with real-time progress tracking via WebSockets.

Nathu's Sweets ERP & CRM

Tech Stack: Laravel, MySQL, JavaScript

- Developed a comprehensive CRM and order management platform handling 500+ daily orders, reducing manual processing time by ~40%.
